

## PRESIDENT U.F.A. LECTURES AT CONVENTION

Speaker Advocates that  
this be Annual  
Event

EDMONTON, Alta., Aug. 11.—The Rural Leadership Conference at the University of Alberta held for the purpose of spreading knowledge of and giving assistance and training in the best ways of dealing with the many serious problems to be found in the country settlements was brought to a close today with a series of meetings during the day and a windup concert at night.

It was decided to make the conference an annual event, H. W. Wood of the Wood Wainwright Co. and the president of the United Farmers of Alberta, saying that it would be nothing short of criminal not to go on after what they heard that week.

A. M. McDonald, superintendent of Department for Delinquent Children in the province, spoke on various sides of the work in what he termed the "country" "slum." Speaking as to causes, Mr. McDonald alluded to the foreign element of the rural population as major offenders, as in so many cases they brought a low moral standpoint with them into the country. Then there was the fact of being near the border and many chose this Province for their residence from the fact of being able to stop across quickly if danger arose from proscriptions of their particular vice.

## TWO HUNDRED OFFICERS TO BE SENT FROM CANADA

Two hundred lieutenants will be sent from Canada to England immediately. They are wanted to complete training in England and form a reserve of officers there to fill vacancies as they occur in Canadian forces in Flanders. A specified number of men holding commissions as lieutenants will be taken from each of the divisional areas of Canada. They will be selected by the head of each district.

When chosen they will be transported at once to the Canadian training camp in England where they will be given the military finish needed to qualify them for work in the trenches. This is the beginning of a new system of providing reinforcements for the four Canadian divisions in the field. Hereafter it will be reinforcements almost entirely.

## 16,000 SOLDIERS ON HARVEST LEAVE

CAMP HUGHES, Aug. 14.—Nearly 5,000 men left camp Hughes yesterday, the first day of harvest leave. A similar number will leave today, and it is expected before the end of the week that the number will be in excess of 16,000. Great preparations are being made by all three of the transcontinental lines to handle the rush and all have ticket offices and special staffs located within the camp limits.

The C.N.R. has made preparations to handle the traffic from its two nearest points, Carberry and Brandon. Ordinarily there is a tri-weekly service from Carberry, but commencing today a daily service was inaugurated, leaving Carberry at 9:45 for Dauphin. Special trains for Humboldt and that district will also leave on Friday.

Apparently harvest leave will be taken right up to the limit allowed, and in many of the battalions there will only be sufficient men left for the necessary guard duties and fatigue parties.

## German Fleet Again Looking For Trouble

COPENHAGEN, via London, Aug. 14.—A large German fleet of dreadnoughts, cruisers, destroyers and submarines came out of the Kiel Canal, Thursday, according to local newspapers. The fleet was sighted off Traiderup, steaming with great speed through the narrow waters of the Little Belt, which is between the Baltic Sea and the Cattegat Sound.

## Rebekahs Hold Social

A very enjoyable time was spent by a large number on Friday evening last at the home of Mrs. J. Gerow, on the occasion of the social evening given by the local Rebekahs. Games and songs were indulged in, and refreshments were served, and as a result the organization will benefit to the extent of something like \$10.

## GAME PRESERVES ARE NECESSARY FOR PROTECTION

Judging from the rate at which the wild creatures of North America are now being destroyed, fifty years hence there will be no large game left in the United States nor in Canada, outside of rigidly protected game preserves. It is therefore the duty of every good citizen to promote the protection of forests and wild life and the creation of game reserves. Every man who finds pleasure in hunting or fishing should be willing to spend both time and money in active work for the protection of forests, fish and game.

In the settled and civilized regions of North America there is no real necessity for the consumption of wild game as human food; nor is there any good excuse for the sale of game for food purposes. The operations of market hunters should be prohibited everywhere, under severe penalties. The highest which the killing of wild game and game fishes can hereafter be made to serve is in furnishing objects to overworked men for tramping and camping trips in the wilds, and the value of wild game as human food should no longer be regarded as an important factor in its pursuit.

## NEW C.P.R. LONG TUNNEL NAMED AFTER GOVERNOR GENERAL

MONTREAL, Aug. 10.—His Royal Highness the Duke of Connaught, Gov.-General of Canada, has at the request of Lord Shaughnessy graciously allowed the tunnel which the Canadian Pacific Railway bored under the Selkirk Mountains, to be named after him. The Connaught Tunnel, which is five miles long and double tracked, gives the Canadian Pacific Railway the lowest grade of any transcontinental through the Selkirks. His Royal Highness went through this tunnel on July 17th last, when the bore had been completed.

This tunnel was bored in less than three years and therefore holds the world's record for tunnelling. The permanent tracks are now being laid in the tunnel and trains will be running through it very shortly.

Owing to the unpropitious state of the weather on Thursday last, the tennis tourney between Wainwright and Edgerton had to be called off after only a few sets had been played.

## WHAT THE RED CROSS IS DOING ALL OVER CANADA

25,000 pairs of socks were sent out in one day from the Canadian Red Cross Depot at Boulogne.

The Red Cross Prisoners of War Bureau at Bern Switzerland, sends weekly parcels to over fourteen thousand prisoners. Each individual parcel contains four pounds of bread.

In the big Canadian hospital at Treport, France, were treated most has been given to nearly 11,000 soldier patients, the death rate has been only three fifths of one per cent.

The Victoria Red Cross has in the last six months collected \$27,083 and shipped 206,253 articles.

Since the first of the year 75 new branches of the Red Cross have been formed in Canada, 37 of which were in Saskatchewan.

The Kingscliffe Convalescent Home for Canadian nurses has recently been opened near Margate, England.

There are 750 Canadian nurses in various convalescent hospitals in England and France.

The St. Dunstan's Red Cross Hospital for blinded soldiers has now 150 patients.

The Canadian Red Cross recently contributed a thousand cases of supplies to the Russian Red Cross.

At each of the Canadian Hospitals in France a Recreation Hut has been erected by the Red Cross to provide entertainment for convalescents.

J. J. Ritchie left town on Thursday last to start his new position in Edmonton.

Owing to September 4th being Labor Day and a public holiday, our town school will re-open on Tuesday, September 5th.

Three more Ford sales are reported this week by Agent Elder, the lucky owners being J. Forsyth, Town, J. Garrie, Edgerton, and A. Kilpatrick, Chauvin.

The prize list for the annual exhibition of the Agricultural Society is now in the hands of the secretary S. Bowerman, and intending exhibitors will do well to get one from him.

We were favored with the first fruits of the corn crop from the farm of S. A. Caspar, on 28-45-7w4, and must admit that it was dandy. Shows what he can accomplish along these lines in garden produce, and we wish there was more of it.

## PREPARING FOR OPENING OF FALL MILLINERY

Mrs. Coleman, and her daughters the Misses Irene and Marion, left last night for a short holiday at Prince Rupert, B.C. During their two weeks absence they propose to visit Victoria and other wholesale millinery centres for the purpose of getting the latest creations in headgear for the benefit of their customers.

## MAKING ALL HAPPY

Take a dollar bill fold it several times each way. Then unfold it, and you will find it in creases. Keep the creases, but send the bill to the editor who put you onto this little scheme to put advance your subscription one year from date of last payment. Then take a silver dollar and drop it on the sidewalk and notice the ring it makes. Send the ring to your best girl and the dollar to the printer and everybody will be happy.—Ex.

## ADVERTISERS NOTE

Owing to the fact that the next issue of THE STAR will be going to press a day earlier than usual, our advertisers will confer a favor by getting the copy for their changes into the office by Saturday next where possible.

## Canadian Maples To Mark Graves

Ottawa, Aug. 12.—Canadian maples are to be planted around the graves of Canadian soldiers in France. Seed of the red and silver maple, ripened at Ottawa, has been sent to London by Dominion Horticulturist W. T. Masson and planted in Kew Gardens. After the war the little trees from these seeds are to be transplanted in France. Seeds of the large-leaved maple of British Columbia are to be sent to London for the same purpose as soon as ripe.

## ALBERTA HORSES STILL WANTED IN EUROPE

Horse buyers for the French army are again travelling through the province of Alberta from this province alone last year they bought over 1,000 head of horses, and they now want more; although at the present time they only want artillery animals and not horses of the lighter breeds. The stout active horse has proven his superiority over the very big fellows for the type of warfare which is now being waged, and these are the good ones at the front. Animals weighing between 1100 and 1200 pounds will bring about \$130, while those over this weight will possibly be worth a little more.

## LETTERS TO THE EDITOR

### ROAD WORK IN QUESTION

The Editor:—Is it right for a man to use his position of trust as a councillor in order to vent his personal spite against an individual ratepayer? The writer has been barred from doing his statute labor without any reason other than the above. Without coming to me as a man and stating his objections the councillor in question found a road foreman who would do his bidding and instructed him to bar me off the road, although they were short of help and hired teams from outside the district to do the work for which I am obliged to help pay. The writer is informed that there are others in this division who have been placed in the same position.

I consider acts of this nature the very essence of smallness on the part of any councillor, and the people deserve an explanation.

Yours Truly,  
M. McDonald,  
Box 10, 44.6w4

## Russia Disposes 100,000 Austrians

Rome, Aug. 14.—The mighty four-day battle, which resulted in the capture of Gorizia by the Italians, cost the Austro-Hungarians 70,000 men killed and wounded, and 30,000 more in prisoners, it was estimated from the front today. In addition there has been severe fighting in the Sereth region in which further large numbers of prisoners were taken.

## WHY THE FUNDS ARE NOT RAISED BY TAXATION

In view of the fact that a new campaign to raise money for the Patriotic Fund will be started very shortly, the central committee for Southern Alberta has just given out the following statement explaining why the Patriotic Fund is raised by voluntary subscription instead of by taxation.

Under the Canadian system of constitutional government the right of direct taxation upon lands and similar resources rests in the hands of the provincial governments and the municipalities. The province of Alberta would have the right to raise money for patriotic purposes by imposing a property and poll tax, but no legislation to that end has been passed and could not now be enacted and made effective in time to provide the fund needed this year to care for the soldier's dependents, and the cost of collecting the tax would be at least ten times what it costs to collect the voluntary contributions.

The Dominion Government could, of course, provide a patriotic fund by donating so many millions of dollars for that purpose, but the Government's outlay is already very much more than its income from taxation, and any additional outlay would have to be met by the issuance of bonds. This would mean the people of Canada, instead of providing for the wives and children of our soldiers out of their income, would be providing for them out of borrowed money. Under the Canadian system recruiting is voluntary, and it seems consistent that those who from inability or choice are not in uniform should show their good spirit by a voluntary contribution to the Patriotic Fund to make the contribution compulsory by taxation would remove from it all the virtue of a voluntary donation, and it is believed in these days, when the men at the front and their relatives are making such tremendous sacrifices, there are few if any at home who do not wish to voluntarily make some contribution to the general cause.

In order, however, that those who attempt to evade their responsibility and will neither fight at the front nor contribute to the Patriotic fund at home may be properly labelled, it is the intention this year to publish not only lists of donations, but also lists of those who are known to be in a position to assist this cause and who refuse to do so.

## RESULTS OF GRADE X. & XI. EXAMINATIONS

The following are the successful pupils in Grades X. and XI. who wrote at the town school:—  
Grade X.—F. Douglas, H. M. Pawling, L. Peterson, R. Redmond, and W. B. Torry.  
Grade XI.—Vera Limpert, and H. C. Kling, (conditional).

## INTRODUCES BILL TO EXTEND LIFE OF PARLIAMENT

Will Probably Sit Till  
Month of May Next  
Year

LONDON, Aug. 14.—Premier Asquith introduced in the House of Commons today a bill to extend the life of the present parliament for eight months, or until the end of next May.

When the premier made his announcement on August 1 that he would introduce the bill, he intimated that he intended at the same time to announce the government's proposal regarding registration. Today, however, Mr. Asquith said it was not the purpose of the government to ask parliament at this time to take up alteration of the qualification for the franchise.

Dealing with a suggestion that the franchise should be extended to all soldiers and munition workers, Mr. Asquith said there were the gravest difficulties in the way and that there was serious objection from a military viewpoint to holding a general election among the troops in the field. He added:

"General enfranchisement has been brought face to face with another problem. What are we going to do with women?"

He was bound to say, the premier went on, that representatives of the women had presented to him a perfectly unanswerable case. They were content to abide by the present franchise, but would urge their claims if the qualifications for the franchise were altered.

A drop in the temperature on the night of Wednesday last, and baby snow storm following caused considerable anxiety among the farmers and merchants of our town and district. The lowest temperature recorded in town during the past week was 28 degrees—four degrees of frost—on the nights of Thursday and Friday last.

## WAINWRIGHT FAIR DATE SET FOR SEPTEMBER 11-12

The Prize lists for the current year's fair are now in the hands of the secretary and good prospects for a big success are well indicated. The directors are already doing everything possible to ensure this, and should the weather prove favorable, the fair this year will likely be even better than any gathering yet held under these auspices. There will be the usual exhibition of stock, poultry, grains, roots, vegetables, etc., for which our district is worthily noted. In ladies' work home manufactures, and such like, the prizes are liberal, and the entries will likely prove large. The directors are insisting this year that all entries must be made and the exhibits for same staged before 10 a.m. on the opening morning of the fair, so as to give the judges proper time to complete their labors and as this is one of the rules of the fair, intending exhibitors will do well to make a note of this fact. The price of admission to the grounds will be 25c, while membership is necessary for exhibitors.

## FARMER DROPS DEAD

SASKATOON, Aug. 14.—Joseph LaLonde, a young French-Canadian, dropped dead while harrowing on a farm near Kenaston, Sask., on Saturday. The body was found lying on the ground behind the implement and at first foul play was suspected. An inquest held on Sunday morning, however, disclosed heart failure as the cause of death.

## COMMISSION ADJOURNS

REGINA, Aug. 14.—The Manitoba commission unexpectedly adjourned this morning without taking evidence. It will sit again tomorrow morning.

## LAND BANKS FOR FARMERS

THERE HAS BEEN for some time a feeling that the agricultural interests of Canada were not being catered to as they should be by our banking institutions, and it has been suggested that farm mortgage banks should be established by the Govt. to meet the needs of the case. It is needless to say that the project is not viewed very favorably by the banks, who resent the criticism that they are not doing justice to the farming community; but the farmers are persistent in demanding some relief from high interest rates, and they are determined to secure it. In British Columbia an agricultural credit commission has been appointed, which is empowered to make loans to farmers upon security of their holdings, these loans to be either for short or long terms. The province will borrow the money, and loan it to the farmer at 6 1/2 per cent. It is of interest to note that an act providing for a system of rural credits has just passed both Houses of the United States Congress, and has probably by this time received the signature of the president. The act provides for the establishment of what are called land banks, under the direction and control of a central board at Washington. These banks will loan farmers money at about six per cent., and will take first mortgages on farm property as security. Any ten farmers wishing to borrow money may petition the land bank in their district to be chartered as a national loan association. Each farmer then applies to this association for his loan of not less than \$100 nor more \$10,000, and the association in turn applies to the land bank for the money, the farmers' notes and mortgages being held as collateral. The borrower must own and be cultivating his land, and he may borrow money for paying off his debts, erecting buildings, purchasing live stock or machinery, or for other improvements. No loan will be made for more than 50 per cent of the value of the land and 20 per cent of the value of the buildings. The debt is to be paid off on the amortization plan in not less than five and not more than forty years. These banks are not to conduct an ordinary banking business, but they will be depositories of public money and financial agents of the Government. They will issue bonds against the mortgages they hold, and these bonds will bear interest not greater than five per cent. This is the United States' first step in this direction, and its issue will be watched with the keenest interest by all Canadians who are alive to the value of the project.

## RAISING PATRIOTIC FUNDS

REPORTS APPEAR occasionally that the various patriotic funds in Canada are having difficulty in making ends meet, that allowances have now to be pared to add to the elasticity of the amount of money available. Nothing but praise is due the men and women who are handling the patriotic funds. One is impressed by their zeal to be of service and their sacrifice of time and labor. But is the best effort being made to get the people to contribute to the funds? True there is a general sort of appeal for money periodically, with a few statistics thrown in, but there does not appear to be a hard, well-defined effort to drive home the facts. Every man and woman who can spare a cent should be made to realize that the common cause calls for help from their pocketbooks. There is room for a real live man and a real live woman to give their whole time to pounding home the truth, organizing city and province, pulling every string and utilizing every legitimate avenue to raise money. Every man should be made to realize that if he cannot fight he can at least pay a decent wage to the men who are fighting. There is an altar of sacrifice in Flanders. It is more to be worshipped than gold on the altar at home.

## THE DANGER TIME FOR CROPS

AFTER THE RUST the hail; after the hail the frost. Farming in Western Canada seems to be just one thing after another: and yet we survive—sure! Not that the frost has yet done any serious damage, but there is a modern adage of more or less standing which says that one might as well kill a man as scare him to death. For a time between the hours of midnight of last Thursday and five o'clock on Friday morning it is no exaggeration to say that several hundred million dollars hung in the balance, while the thermometer was flirting with the weather man—uncertain whether to go up or down. The welfare and happiness of the west is pretty intimately bound up in that fluctuation of the mercury one way or other. For the next two weeks the whole country will rest uneasily; the crop is nearly a week later than it was last year, and cannot now make up the lost days when we should have been having sunshine instead of rain, although with the average weather it is still quite safe. It is true that a harmful frost has been known to come as early as August 7th, but the average date of the earliest frost of three degrees or worse in the past twelve years has been September 16th. This gives ample margin of safety still, providing we get average weather, as it is only reasonable to hope and expect that we will.

The city of Lethbridge reports that the police have not encountered a case of drunkenness in thirty one days. Pretty fair proof that the law can be enforced.

After a million feet of timber have been destroyed, not to mention the lives of hundreds of citizens, the Ontario government may give a little more attention to forest conservation. The system in Ontario is antiquated.

That the insignificant few miners and mine operators can bring hardships and discomfort on the people of the West is a condition that should not be tolerated. The resources of this country are for the people at large and juggling of the same for the benefit of a few is deplorable.

## IRRIGATION IS SERIOUS PROBLEM OF AGRICULTURE

The growing importance of  
irrigation in the agricultural  
development of Canada is sug-  
gested by a new folder just  
issued by the Department of  
Natural Resources of the Cana-  
dian Pacific Railway. The  
folder deals with the irrigation  
enterprises in the neighbor-  
hood of Calgary. It is hand-  
somer illustrated and complete  
with valuable information for  
the farmer and home-builder.  
A copy may be had free by  
writing the Publicity Branch,  
Department of Natural Re-  
sources, Calgary, Alberta.

### HOW TO PREVENT FIRE

Keep waste paper packing  
material and rubbish cleaned up.

Make frequent personal in-  
spection from a fire standpoint.  
See that your electric wiring  
is standard, and be careful in  
the use of electric devices.

Have all smoke-pipes and  
chimneys inspected and prop-  
erly repaired before starting fires  
for the winter.

Be careful about the use of  
matches. Provide safe recepta-  
cles for them both before and  
after use.

Feel your personal responsi-  
bility as to possible loss of life  
and property by fire and ac-  
cordingly.

### GREENSHIELD GLEANINGS

Clayton P. Stoaffor is spend-  
ing his holidays with Ralph  
Dookstader at Fabyan.

Building operations on R. M.  
Carl's new house are proceeding  
favorably.

The elevator builders are  
camped in our village.

Misses Minnie White and  
Lize Morrison, are visiting  
Mrs. T. A. McDougall at  
present.

The Red Cross meeting held  
Wednesday was a very busy  
one. Considerable work was  
prepared for distribution.

Pte. R. Scragg returned to  
Edmonton after spending a few  
days recruiting in this vicinity.

J. W. Patterson is building a  
fine new barn on his place. He  
drew the lumber home last  
week end.

### WELCOME NEWS FOR

#### LOCAL PEOPLE

People in this town will be glad  
to hear the mixture of simple buck-  
thorn bark, glycerine, etc., known  
as Adler-Pka, can be obtained at  
our store. This simple remedy be-  
came famous by curing appendicitis  
and JUST ONE SPOONFUL re-  
lieves sour stomach, gas and con-  
stipation INSTANTLY because it  
drains off such a surprising amount  
of old foul matter from the body.
